

Tuesday - 22 May 1951

1. The Director reversed his original position that he would accept the House amendment to S. 927, and requested that an attempt be made to restore the tax provision. I discussed this matter with DD/A, urging that the Director adhere to the original recommendation to accept the House amendment.

2. Congressman Kersten called the DCI's office to arrange for an appointment with the DCI for himself and Mrs. Robert Voegler. I called Mr. Kersten and ascertained Mrs. Voegler wished to discuss problems relating to CIC, and I informed him that these were problems for the Department of the Army. I requested General Reber, Chief of L&LD of the Department of the Army, to get in touch with Mr. Kersten. Congressman Kersten also wished to discuss some other intelligence matters with the Director, and I stated I would be delighted to come up and discuss them with him.
